

5X ENVIRONMENTAL

CONSULTING AGENCY

Delivering tools and education
that results in the client's success!

5xenvironmental.com

CAPABILITY STATEMENT

CORE COMPETENCIES

5X ENVIRONMENTAL is a Health, Safety, and Environmental consulting agency with over 20+ years in the HSE industry.

We specialize in OSHA compliance, construction site safety, health and safety training, environmental project management, and risk management. Our goal for every project is to deliver tools and education that results in the client's success. At 5x, we can provide you the development staff or train and mentor your employees with HSE best practices.

Our years of experience come from working with private and government contracting companies ranging in projects from Hurricane Katrina Disaster Response, LOGCAP, pharmaceutical site construction, industrial site readiness, and procedural site audits.

We pride ourselves in keeping up with the latest industry trends and tools to better serve our clients. Using Six Sigma practices, we tackle each project with an observe - audit - teach approach.
